Up close with Caracals

Time to immerse yourself into an incredible experience. The Namibian caracal, also known as the African lynx, is a magnificent and elusive cat species found throughout Namibia's diverse habitats. With its distinctive tufted ears, sleek fur, and agile build, the caracal is a skilled hunter capable of taking down prey much larger than itself. Our guides will take you to walk amongst our habituated caracal.

Capable of leaping into the air and knocking down 10-12 birds at one time, this is not your average kitty.

During this walk you will get to see how these animals behave in the wild, stalking birds and small mammals as they repaint their natural instincts and hone their hunting skills. You will also experience the serenity of the Namibian bushveld.

Cheetah Experience

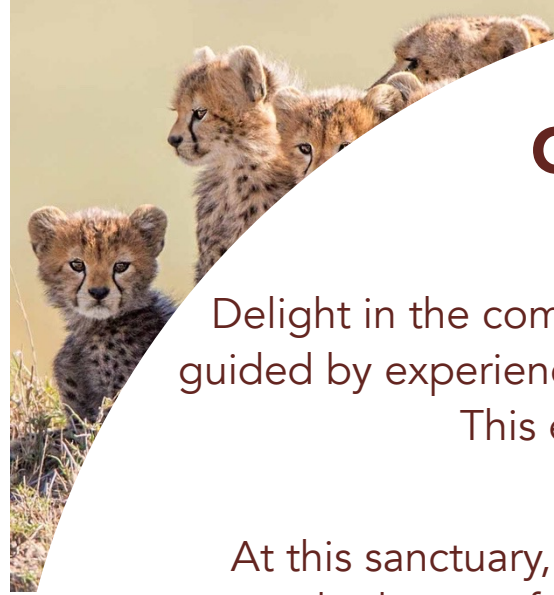

Delight in the company of our habituated big cats, guided by experienced and knowledgeable experts.

This extraordinary opportunity should not be overlooked.

At this sanctuary, we care for habituated cheetahs who have unfortunately lost their innate fear of humans, a fear that plays a crucial role in enhancing their chances of survival in the untamed wilderness.

Consequently, some of these magnificent spotted sprinters must remain in captivity, as they arrived at our sanctuary from various conflict situations at a tender age, necessitating dedicated care to ensure their continued existence.

We wholeheartedly nurture and promote their natural behaviours, striving to replicate the lives of their wild counterparts as faithfully as possible within a captive environment.

Sunset horse riding

Saddle up for an adventure of a lifetime. Experience the wonders of our wildlife on horseback! There's nothing quite like it. Don't be scared, we will guide you through this amazing experience.

A two-hour horse ride through the bush will give intermediate and advanced riders the unique chance to observe our wild game closer than ever before. You may even be lucky enough to ride amongst our gorgeous giraffe family.

Our experienced coordinator will provide you with all the necessary safety equipment and will be by your side throughout this fabulous afternoon in the breath taking Namibian landscape.

A horse safari in Namibia promises moments of exhilaration, serenity, and unparalleled beauty.

Meerkat adventure

Take the once-in-a-lifetime opportunity to enter the "Meerkat Manor" and spend a magical two hours witnessing the delightful antics of the bushveld's most beloved residents. Meerkats are early risers, emerging from their dens from approximately 6:15 AM

There are few animals on Earth who work as well together as meerkats. These squirrel-sized members of the mongoose family live in groups as large as 40, and everyone in the mob participates in gathering food, keeping a lookout for predators, and taking care of the babies.

Meerkats are known for their daring diet: they are able to kill and eat venomous snakes and scorpions without being hurt, as they have some immunity to the venom. Able to survive without drinking water, meerkats get the moisture they need from eating roots and tubers as well as fruit such as tsama melons.

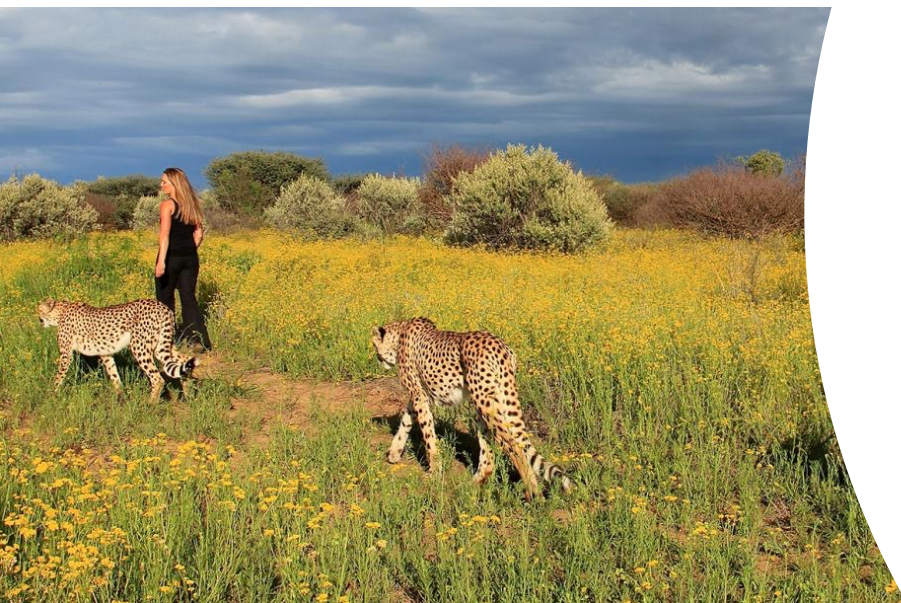

Behind the scenes

This is an amazing tour if you are interested in conservation focused on wild animals in a sanctuary. Why are they there? Get your answers with this tour.

Follow in Marlise's footsteps and get an intimate view of the workings of a wildlife reserve and sanctuary.

On this in-depth activity, you will gain insight into the real *N/a'an ku sê* world and the inner workings of sanctuary life and animal species currently being cared for.
